1 Change Control

Date	Version	Details
31-Jul-05	1.0	First formal issue of this document.
01-Apr-06	1.1	Additional summits. Renamed BL-001 and SO-015. Changed the alt. of BL-004. Removed SO-014, because same summit as BL-007. Removed SG-028, because same summit as AI-004.
01-Aug-06	1.2	Additional Summits. Made several corrections by name and alt of summits.
01-Apr-07	1.3	Additional Summits. Change of Canton SG-038 Hochalp to AR-008 Hochalp. Made several corrections by name and alt of summits. Region Manager updated.
01-Dec-07	1.4	Additional summits. Removed FR-037, because same summit as BE-104. Removed ZH-013, because same summit as ZH-008. Made several corrections by name and alt of summits. Mountain- and Region Manager updated.

01-Nov-08	1.5	<p>In FR Region, the summit FR-038 is removed because it is part of the region BE (now BE-122).</p> <p>In GL Region, the summits GL-007, GL-024, GL-035 and GL-038 are removed, because the shallow col vertical clearance are too few. New summits from GL-040 to GL-045 are added.</p> <p>In GR Region, the summits GR-084, GR-116 and GR-152 are removed, because the shallow col vertical clearance are too few. For the region GR there's a new Region Manager.</p> <p>In NW Region the summits NW-001 to NW-005 the latitude and longitude coordinate pairs are been changed.</p> <p>In OW-Region the summit OW-005 is removed, because the shallow col vertical clearance is too few.</p> <p>In SG-Region the summits SG-019, SG-021, SG-031, SG-036, SG041 and SG-043 are removed, because the shallow col vertical clearance are too few. New summits from SG-050 to SG-060 are added.</p> <p>In TI-Region summits TI-008, TI-020, TI-025, TI-028, TI-033, TI-038, TI-040, TI-055, TI-069, TI-072, TI-087, TI-094, TI-095 and TI-097 are removed, because the shallow col vertical clearance are too few. New summits from TI-104 to TI-153 are added.</p> <p>Additional summits in AR, BE, BL, FR, LU, SZ, TG, VD, VS and ZH-regions.</p> <p>Several coordinates in the Regions GL, GR, NE, TI and SG have been checked and changed according to WGS 84.</p>
-----------	-----	--

01-Jun-10	1.6	<p>In AI-Region, the summit AI-004 is removed, because the shallow col vertical clearance is too few. A new summit AI-013 is added</p> <p>In AR-Region, the summit AR-007 is removed, because the shallow col vertical clearance is too few.</p> <p>In BE-Region, the summits: BE-002, BE-004, BE-005, BE-007, BE-013, BE-015, BE-016, BE-017, BE-018, BE-019, BE-020, BE-021, BE-022, BE-023, BE-024, BE-026, BE-028, BE-030, BE-031, BE-036, BE-038, BE-041, BE-043, BE-046, BE-047, BE-049, BE-059, BE-061, BE-067, BE-068, BE-071, BE-074, BE-080, BE-088, BE-090, BE-091, BE-096, BE-098 and BE-100 are removed, because the shallow col vertical clearance are too few. New summits from BE-124 to BE-159 are added.</p> <p>In GL Region the summit GL-043 is removed, because it is part of the region SZ.</p> <p>In GR Region, new summits from GR-296 to GR-344 are added.</p> <p>In LU Region, the summits LU-001, LU-009 and LU-016 are removed, because the shallow col vertical clearance are too few. LU-005 is removed, because it is part of the Region OW. LU-008 and LU-012 are removed, because they are part of the Region SZ. LU-015 is removed, because it is part of the Region BE. New summits LU-022 and LU-023 are added.</p> <p>In NW region, the summit NW-006 is removed, because the shallow col vertical clearance is too few. A new summit NW-020 is added.</p> <p>In OW Region, the summit OW-008 is removed, because the shallow col vertical clearance is too few. New summits from OW-023 to OW-025 are added.</p> <p>In SG Region, The summit SG-055 is removed. New summits SG-061 and SG-062 are added.</p> <p>In SZ Region, the summits SZ-004, SZ-007, SZ-012, SZ-015 and SZ-029 are removed, because the shallow col vertical clearance are too few. New summits from SZ-033 to SZ-037 are added.</p> <p>In UR Region, the summits UR-052 and UR-064 are removed, because the shallow col vertical clearance are too few. New summits from UR-067 to UR-074 are added.</p> <p>In VS Region, the summit VS-022 is removed, because the shallow col vertical clearance is too few. New summits from VS-120 to VS-245 are added.</p> <p>In ZH Region, the summits ZH-001, ZH-002 and ZH-007 are removed, because the shallow col vertical clearance are too few. A new summit ZH-018 is added.</p> <p>Several coordinates in the Regions BE, LU, NW, OW, SH, SZ, TG, UR, VS, ZG and ZH have been checked and changed according to WGS 84.</p> <p>For the Regions BL, BS, JU and SO there is a new Region Manager.</p>
-----------	-----	--

		Several coordinates have been converted from DMS in the DD Format.
01-Feb-11	1.7	<p>New HB Association Manager: Edwin Schuetz HB9ZAP. New Administration Manager: Fred Tinner HB9AAQ.</p> <p>For the Regions AG, BE, NE, SH, TG, TI, VS, ZG and ZH there's a new Region Manager: Guido Zala HB9TNF.</p> <p>We have changed the name SOTA Group Switzerland in HB9SOTA, included a club special call HB9SOTA.</p> <p>In AG-Region, the summits AG-002, AG-005 and AG-009 are removed, because the shallow col vertical clearance are too few. New summits from AG-011 to AG-013 are added.</p> <p>In BE-Region, a new summit BE-160 is added.</p> <p>In FR-Region, the summits FR-007, FR-016, FR-021 and FR-031 are removed, because the shallow col vertical clearance are too few. New summits from FR-041 to FR-044 are added.</p> <p>In SG-Region, a new summit SG-063 is added.</p> <p>In TG-Region, the summit TG-001 is removed, because the shallow col vertical clearance is too few. TG-001 it's also completely in the SG-region.</p> <p>In VD-Region, the summits VD-004, VD-018, and VD-042 are removed, because the shallow col vertical clearance are too few.</p> <p>In VS-Region, new summits from VS-246 to VS-257 are added. The wrong coordinates of HB/VS-152 Strahlhorn have been corrected.</p> <p>Several coordinates in the Regions AG, AI, AR, FR and VD have been checked and changed according to WGS 84.</p>

01-Feb-12	1.8	<p>In AR-region, the summits AR-001 and AR-009 are removed, because the shallow col vertical clearance is too few.</p> <p>In BL-region, the summits BL-002, BL-010 and BL-016 are removed, because the shallow col vertical clearance are too few. BL-011 is removed, because this mountain is in SO-region. (New SO-018) Several altitude indications, names and coordinates have been checked and corrected.</p> <p>In BS-region, several altitude indications, names and coordinates have been checked and corrected.</p> <p>In GR-region, the summit GR-239 is removed, because the shallow col vertical clearance is too few. The summits GR-052, GR-296, GR-298 and GR-299 are removed, because there are the same as TI-007, GR-042, GR-060 and GR-080. A new summit GR-345 is added.</p> <p>In JU-region, several altitude indications, names and coordinates have been checked and corrected.</p> <p>In NE-region, a new summit NE-007 is added. (NE-007 was wrongly VD-040)</p> <p>In SG-region, a new summit SG-064 is added.</p> <p>In SO-region, the summits SO-002 and SO-017 are removed, because the shallow col vertical clearance are too few. New summits SO-018 and SO-019 are added. (SO-018 was wrongly BL-011) several altitude indications, names and coordinates have been checked and corrected.</p> <p>In TG-region, new summits TG-007 and TG-008 are added.</p> <p>In VD-region, VD-040 is removed, because this mountain is in NE-region. (New NE-007)</p> <p>In VS-region, the summit VS-121 is removed, because this is the same as VS-054.</p> <p>In different regions the indications of the altitude, the names and coordinates were corrected, this according to radio amateurs from SOTA.</p>
-----------	-----	--

01-May-13	1.9	<p>In AG-region: all details like altitude, name and coordinates of all mountains were checked and corrected.</p> <p>In AI-region: all details like altitude, name and coordinates of all mountains were checked and corrected. AI-006 has now 1769 m, instead of 1743 m, because there was an error. The number of the points are now 6. AI-011 is removed, because the shallow col vertical clearance is too few.</p> <p>In AR-region: all details like altitude, name and coordinates of all mountains were checked and corrected. AR-010 is removed, because the shallow col vertical clearance is too few.</p> <p>In BE-region: all details like altitude, name and coordinates of all mountains were checked and corrected.</p> <p>In SG- region: SG 061 is removed, because the shallow col vertical clearance is too few.</p> <p>In ZH-region: a new summit ZH 019 is added.</p> <p>In different regions the indications of the altitude, the names and coordinates were corrected, this according to radio amateurs from SOTA.</p>
-----------	-----	---

01-Mar-15	2.0	<p>The new Association Manager is Jürg Regli HB9BIN</p> <p>The new Board of Directors of HB9SOTA is listed in Section 1 under the subhead Association Reference Data.</p> <p>Summits in the AG Region: AG-006 deleted because it does not meet the P150 rule.</p> <p>Summits in the AR Region: AR-006 and AR-011 deleted because they do not meet the P150 rule. New summit AR-012 added.</p> <p>Summits in the BE Region: BE-159 deleted because it does not meet the P150 rule. New summits BE-161 to BE-167 added.</p> <p>Summits in the BL Region: BL-003, BL-006 and BL-008 deleted because they do not meet the P150 rule. Region Manager updated.</p> <p>In the BS Region: Region Manager updated.</p> <p>Summits in the FR Region: FR-002, FR-009, FR-011 and FR-029 deleted because they do not meet the P150 rule. New summits FR-045 to FR-049 added.</p> <p>Summits in the GL Region: GL-011 deleted because it does not meet the P150 rule. New summits GL-046 and GL-047 added.</p> <p>Summits in the GR Region: GR-075, GR-111, GR-164, and GR-258 deleted because they do not meet the P150 rule. GR-310 and GR-336 deleted because they are located completely on Italian territory. After agreement with the Summit Managers from OE and LI, border summits GR-026, GR-036, GR-055, GR-108, GR-311, GR-322, GR-326, GR-335, GR-338, GR-339 and GR-340 deleted because these have multiple references with neighboring associations. New summits GR-346 to GR-372 added.</p> <p>Summits in the JU Region: JU-002, JU-005 and JU-006 deleted because they do not meet the P150 rule. New summits JU-008 and JU-009 added. Region Manager updated.</p> <p>Summits in the LU Region: LU-017 deleted because it does not meet the P150 rule. New summits LU-024 to LU-029 added.</p> <p>Summits in the NE Region: NE-002, NE-004 and NE-005 deleted because they do not meet the P150 rule.</p> <p>Summits in the NW Region: NW-010 deleted because it does not meet the P150 rule. New summits NW-021 and NW-022 added.</p> <p>Summits in the OW Region: OW-017 deleted because it does not meet the P150 rule. New summit OW-026 added.</p> <p>Summits in the SG Region: SG-005, SG-010, SG-022, SG-023, SG-024 and SG-058 deleted because they do not meet the P150 rule. New summit SG-065 added.</p>
-----------	-----	--

	<p>Summits in the SH Region: SH-001 deleted because it does not meet the P150 rule.</p> <p>Summits in the SO region: SO-007 and SO-011 deleted because they do not meet the P150 rule. New summit SO-020 added. Region Manager updated.</p> <p>Summits in the SZ Region: SZ-031 deleted because it does not meet the P150 rule. New summits SZ-038 to SZ-040 added.</p> <p>Summits in the TG Region: New summits TG-009 und TG-010 added.</p> <p>Summits in the TI Region: TI-050 und TI-148 deleted because they do not meet the P150 rule. New summits TI-154 to TI-158 added. TI-069 and TI-094 again declared as valid because these actually do meet the SOTA regulations due to partially changed information.</p> <p>Summits in the UR Region: UR-062 deleted because it does not meet the P150 rule. New summits UR-075 to UR-078 added.</p> <p>Summits in the VD Region: VD-022 and VD-041 deleted because they do not meet the P150 rule. New summits VD-048 and VD-049 added. VD-042 again declared as valid because it actually meets the SOTA regulations following the correction of the name.</p> <p>Summits in the VS Region: VS-068, VS-086, VS-091, and VS-092 deleted because they do not meet the P150 rule. VS-192 deleted because it is listed double with TI-026. After agreement with the Summit Manager from F, border summits VS-038, VS-101, VS-212, VS-233, VS-234 and VS-237 deleted because these have multiple references with neighboring associations. New summits VS-258 to VS-264 added.</p> <p>Summits in the ZH Region: ZH-009 deleted because it does not meet the P150 rule. New summit ZH-020 added.</p> <p>In the case of summits that do not meet the P150 rule, we have received permission from the MT in the UK to delete them effective 31 May 2015.</p> <p>For all HB summits: information about elevations, names and coordinates have been checked and corrected as necessary. The corrected information comes from an online series of maps (see Section 1.3).</p>
--	--

01-Jun-18	2.1	<p>New Award Manager and Callsign Manager: Tom Benz, HB9DPR. Additionally, a new Digital and IT Manager: Manuel Kasper, HB9DQM. The new Board of Directors of HB9SOTA is listed in Section 1 under the subheading “Association Reference Data”.</p> <p>Summits in the BE Region: New summits BE-168 to BE-174 added.</p> <p>Summits in the BL Region: BL-017 deleted because it does not meet the P150 rule.</p> <p>Summits in the BS Region: BS-001 deleted because it does not meet the P150 rule. As this was the only summit, the region BS has been deleted.</p> <p>Summits in the GL Region: GL-010 deleted because it does not meet the P150 rule. New summit GL-048 added.</p> <p>Summits in the GR Region: New summits GR-373 to GR-375 added.</p> <p>Summits in the JU Region: New summit JU-010 added.</p> <p>Summits in the region SG: SG-062 deleted because it does not meet the P150 rule. Three summits SG-019, SG-021 and SG-055 reactivated because after a closer examination they fulfilled the P150 rule.</p> <p>Summits in the SO Region: New summit SO-021 added.</p> <p>Summits in the TI Region: New summits TI-159 and TI-160 added.</p> <p>Summits in the region UR: UR-075 deleted because it does not meet the P150 rule.</p>
-----------	-----	--

01-Oct-19	2.2	<p>The new vice president is Michael Räss, HB9EIV who replaces Paul Schreier HB9DST. The office of actuary and treasurer has been one office until now. From now on, these two offices will be held individually by one member of the management board. The actuary is as before Bruno Ackermann, HB9CBR and new cashier is Mathias Senn, HB9FVF.</p> <p>The new regional manager of the regions AI and AR is Guido Zala, HB9TNF since the former regional manager Edwin Schütz, HB9ZAP has retired.</p> <p>At the general assembly 2018 it was decided that now also nameless map points that meet the P150 rule can be listed.</p> <p>Summit in the region BE: New summit BE-175 added.</p> <p>Summits in the GL region: GL-025 declared invalid due to incorrect location. Added new summit GL-049 with correct location.</p> <p>Summits in the GR region: New summits GR-376 to 382 added.</p> <p>Summits in the OW region: OW-024 declared invalid on 28.02.2020 due to incorrect location and added as OW-027 with correct location from 01.03.2020.</p> <p>Summits in the region SO: Added new summits SO-022 to 024.</p> <p>Summit in the TG region: TG-003 declared invalid because it does not meet the P150 rule.</p> <p>Summits in the TI region: TI-025 reactivated by the new map points rule. Added new summits TI-161 and 162.</p> <p>Summits in the VS region: VS-180 declared invalid due to incorrect location. Added new summit VS-265 with proper location.</p> <p>The regions AI, AR, FR, GL, LU, NW, SG, SH, SZ, TG, VD, ZG and ZH according to the new map layouts of map.geo.admin.ch and their new specifications and spellings corrected.</p>
-----------	-----	--

01-Feb-23	2.3	<p><u>Personal changes:</u></p> <p>New President: Jens Nolte New Vice President: René Kuhn New Actuary: Sabrina Kuhn New Award Manager and Callsign Manager: Jean-Pierre Theiler New Mountain Manager: Arthur Schwilch</p> <p><u>Summits:</u></p> <p>Summits in the BE region: Three new summits added (BE-176, BE-177, BE-178).</p> <p>Summit in the GL region: GL-011 has been reactivated. Prominence is again fulfilled according newest swisstopo map.</p> <p>Summit in the GR region: New summit GR-383 added.</p>
1-May-2023	2.4	<p><u>Mont Fourchon HB/VS-194 -> I/VA-142</u></p> <p>Mont Fourchon HB/VS-194 is located exactly on the Swiss-Italian border, and the larger part of the activation zone is on the Italian side. Therefore, we have to hand over this summit to our Italian colleagues. As of 1 May 23, Mont Fourchon now has the reference I/VA-142. The old logs and photos are now visible on the SOTLAS page of I/VA-142.</p>

1-Dec-2023		<p><u>Personal changes:</u></p> <p>According to the decision of the HB9SOTA board meeting (13.5.2023), all tasks of the still listed regional managers will be overtaken by the summit manager Arthur Schwilch.</p> <p>New Actuary: Frédéric Noyer</p> <p>New Secretary: Roman Bächli</p> <p><u>Summits:</u></p> <p>Summit in the GR region:</p> <p>GR-164 (Punta Pioda di Sciora) has been reactivated. Prominence is again fulfilled according actual swisstopo map.</p> <p>Summit in the SG region:</p> <p>SG-005 (Zanaihorn) has been reactivated. Prominence is again fulfilled according actual swisstopo map.</p> <p>Summit in the VS region:</p> <p>New summit VS-266 (Le Besso) added.</p> <p><u>General:</u></p> <p>All Swiss SOTA summits were checked with regard to names, heights and coordinates. The swissNAMES3D data collection from geo.admin (Swiss federal office of topography) was used as the basis for this. Corrections were made for about half of all peaks (all peaks except those three mentioned above, however, remain within the existing activation zones). Special consideration was given to the multilingualism of the summits and duplicate summit names. Such peak names have been separated with a slash. Spaces before or after the slash have been removed (instead, a 'zero-width space' has been inserted after the slash so that a line break is still possible for different frontends).</p>
1-Feb-2025	2.5	<p><u>Summits:</u></p> <p>Torent Alto (HB/TI-024) has been given a new reference, as the highest point at 2956m (3m higher) lies about 200m northeast of the current SOTA coordinates. Since the previous activation zone does not extend to this new highest point, a new reference (HB/TI-163) has been assigned.</p> <p>Meniggrat (HB/BE-149) has unfortunately been removed because, according to the current topographic map, it does not meet the required prominence of 150m.</p> <p>Additionally, there were various minor adjustments to names, coordinates, and elevations (mostly cosmetic changes).</p>

2 Association Reference Data

Association	Switzerland (HB)
Commencement date	01-Aug-2005
Regions	Aargau (AG-xxx) Appenzell Innerrhoden (AI-xxx) Appenzell Ausserrhoden (AR-xxx) Berne (BE-xxx) Basel-Land (BL-xxx) Basel-Stadt (BS-xxx) Fribourg (FR-xxx) Glarus (GL-xxx) Graubünden (GR-xxx) Jura (JU-xxx) Lucerne (LU-xxx) Neuchatel (NE-xxx) Nidwalden (NW-xxx) Obwalden (OW-xxx) St.Gallen (SG-xxx) Schaffhausen (SH-xxx) Solothurn (SO-xxx) Schwyz (SZ-xxx) Thurgau (TG-xxx) Ticino (TI-xxx) Uri (UR-xxx) Vaud (VD-xxx) Valais (VS-xxx) Zug (ZG-xxx) Zürich (ZH-xxx)
Association parameters ¹	
Summit operation criteria	Operation must be within 25m vertically of the summit
Band 1, score 1 point	<1000m ASL
Band 2, score 2 points	>=1000m ASL, <1500m ASL
Band 3, score 4 points	>=1500m ASL, <1750m ASL
Band 4, score 6 points	>=1750m ASL, <2000m ASL
Band 5, score 8 points	>=2000m ASL, <2500m ASL
Band 6, score 10 points	>=2500m ASL
Seasonal bonus	Yes
Bonus rationale	3 Points for all activations above 1500m ASL during bonus period
Bonus period	1 December to 31 March inclusive

¹ See General Rules for parameter definitions

Association	Switzerland (HB)
Association-sponsored awards	HB9SOTA certificates with HB9SOTA cowbell
President (Association Manager)	Jens Nolte, HB9EKO (hb9eko@uska.ch)
Vice-President	René Kuhn HB9PIM (r-m-kuhn@sunrise.ch)
Summit Manager and Technical Director	Arthur Schwilch, HB9CEV (arthur.schwilch@bluewin.ch)
Assistant of the Management Team	Sabrina Kuhn, HB3XTZ (hb3xtz@protonmail.ch)
Secretary	Roman Bächli HB9HKR (hb9hkr@uska.ch)
Actuary	Frédéric Noyer HB9HWF (hb9hwf@lightlogic.ch)
Cashier	Mathias Senn, HB9FVF (hb9fvf@uska.ch)

Digital and IT-Manager	Manuel Kasper, HB9DQM (mk@neon1.net)

2.1 Division of regions

For political purposes, Switzerland is divided into 26 cantons. Every canton with a valid summit is considered a SOTA region. Every canton uses the same point system.

If a mountain's summit is physically shared among multiple cantons, it is assigned to the smallest involved canton.

For the definition of a summit, the following criteria apply:

- The summit must rise above its surroundings ("topographical prominence") on all sides by 150m.
- In case of doubt, the Management Team takes the final decision if a summit may be included in the list.

2.2 General information

Starting with ARM v2.3, we believe all possible summits are now listed in the summit tables. Despite our very best efforts, we make no claims that the summit list is absolutely correct. For summits that nonetheless might still be missing, an application can be made with the appropriate Regional Manager or the Summit Manager (arthur.schwilch@bluewin.ch). If the summit meets the SOTA criteria, it will be assigned a reference number and added to the summit list as soon as possible.

For summits not yet included in the list, no points can be claimed until they have been added.

2.3 Map resources

The coordinates and elevations in the following lists correspond to information from the mapping program issued by the Swiss Federal Office of Topography. The maps can be examined at

<http://map.geo.admin.ch/?lang=de&X=190000.00&Y=660000.00&zoom=1&topic=ech&bgLayer=ch.swisstopo.pixelkarte-farbe>.

The summit lists were made available to us through the friendly assistance of the European Prominence Group, which considerably helped reduce the effort needed to assemble the lists.

2.4 Disclaimer

Hiking, mountain and rock climbing are potentially dangerous activities. The SOTA management team and their associates assume no responsibility for accidents. Every SOTA participant does so at his own risk and responsibility. Every SOTA participant must decide for himself, if he has the necessary ability to reach his destination. He must be informed of the difficulty level of the tour before starting out. The listing of a summit in the reference does not mean that it is easy to reach.

2.5 Final words

As a guest in nature, everyone can choose their own way, speed and rhythm. This freedom is of value. But it is not boundless, because it implies responsibility for fellow man and nature.

The natural habitat is rich and manifold. Many plants and animals are bound to a narrow habitat and are sensitive to interferences.

Our responsibility towards nature and the environment is not limited to the tour itself. The before and after, the planning, the material, the choice of means of transport, the accommodation and waste disposal are included.

3 Summit Reference Data
